

Environmental Compliance Can Be Complicated...

When it comes to petroleum releases, our solid background with the Pennsylvania Underground Storage Tank Indemnification Fund (USTIF) makes the claims process faster and easier. Letterle has managed over 180 projects since the inception of USTIF in 1994.

With a staff of state licensed geologists and engineers, as well as environmental scientists and field technicians, Letterle has the resources and experience to professionally handle your USTIF claim.

We actively educate and advise our clients about USTIF procedures, assist them with preparing initial claims, and walk them through the complicated review and approval process.

Our project managers are experts at dealing directly with USTIF officials and their contractors to resolve claims and maximize your coverage.

...We Clear It Up For You.
